

Painting White Ceramic Objects and Glass

Materials:

Acrylic paints/ watercolour/ready mix
(Colours: white, blue, red/magenta, yellow)

Brushes, one large and one small

White oil pastel/white wax crayon/ white candle

Objects to draw - white ceramics. glass

Arrange your objects on a white background and position in a position with light coming from one side so that you have a definite light side and a definite shadow side.

Draw the objects with a pencil. draw in the SHAPE of the light, mid tone and dark areas

Fill in the white areas with the resist

Begin to look for colours. Look for blues and purples in the shadow areas. Look for pastel colours in your mid tones.

Dont be afraid of exaggerating the colours you pick up on, you can soften them in the final step.

Put a layer of white paint over the top where you want to soften the colours.
